

## Mayor's Message – Mapleton/Drayton Fair

It is that exciting time of year again when we can partake in our local fair! Our volunteers have been diligently preparing to offer our residents and visitors a great experience, and we thank them for that.

Early pioneers came to these parts, clearing the lands, to establish a place to call home. Working with their hands they built homes and communities from the ground up. Some of these small settlements blossomed to help form our current communities.

We are very fortunate here in Mapleton. We get to see the latest and greatest new farm equipment and operations in our agricultural community. We also get a glimpse of farming practices that have been around for centuries as fields are worked using tried and true equipment pulled by horses or hand operated.

This year, at the Mapleton/Drayton Agricultural Fair, we celebrate what shaped our community then, and the agricultural methods of today and the future. Come and enjoy the experience with us!

Mapleton – Rooted in Tradition, Growing for the Future.
